

METRIC TOOL & DIE LTD.

Aggressive & Precise

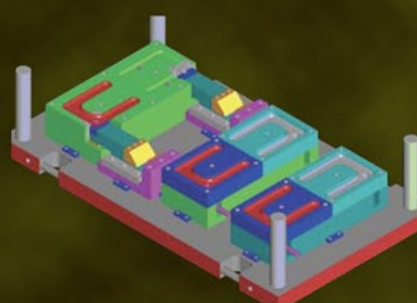

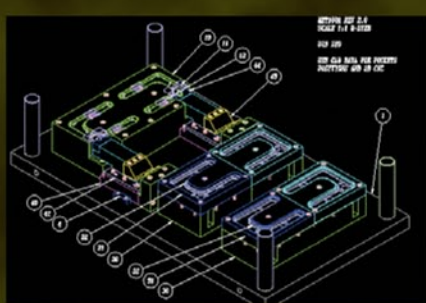

METRIC TOOL & DIE LTD.

Metric Tool and Die Ltd. is a 25-year-old Mississauga-based company, specializing in progressive dies, hand transfer and stationary tooling for the automotive and hardware industries.

At Metric, we offer our customers personalized service and pride ourselves on our quality workmanship and dependability. We provide in-house design, primarily in 3D solids, fully detailed and updated as required, using state-of-the-art CAD and CAM programs.

With an extensive quality control system in place, we are currently working diligently to secure ISO certification.

We are committed to our clients and working closely with them to build a lasting relationship based on mutual trust and satisfaction and to continue to meet their needs well into the future.

METRIC TOOL & DIE LTD.

Mission Statement

With a quarter century of experience behind us, Metric Tool and Die Ltd. is dedicated to growing its business to meet the increasing marketplace demands, at the same time maintaining its adherence to customer satisfaction through personalized service, quality workmanship, and on-time delivery.

We guarantee products manufactured to the highest standards, designed to meet the specific needs of the customer and to work closely with our clients to ensure this is achieved.

Courtesy, respect, ethics and integrity are the watchwords of our customer service policy.
